

Business and Organizational Security Management (MA)

This program is offered by the George Herbert Walker School of Business & Technology. It is available online and at select U.S. campuses, but it is not available at the St. Louis home campus. Please see the Campus Locations and Offerings section of this catalog for a list of campuses where this program is offered.

Program Description

The complexities of modern society have combined to generate a variety of threats to business organizations, information networks, military installations, government operations and individuals.

The curriculum of the program is based primarily on the social sciences. The program is designed to give maximum exposure to security management skills and to provide flexibility for the specific needs of the individual student. The content of the business and organizational security management program complements and assists the student in preparation for the Certified Protection Professional Program.

The MA in business and organizational security management is accredited by the Accreditation Council for Business Schools and Programs (ACBSP).

Learning Outcomes

- Students will be able to explain the important terminology, facts, concepts, principles, analytic techniques and theories used in the field of business and organizational security management.
- Students will be able to effectively apply important terminology, facts, concepts, principles, analytic techniques and theories used in the field of business and organizational security management when analyzing complex situations.
- Students will be able to effectively integrate important facts, concepts, principles and theories used in business and organizational security management when developing solutions to multifaceted business and organizational security management problems in complex situations.
