

Sounds Abound

Sounds Abound: In a world without instruments, could you still make music? Of course you could! Music was born from creativity—people using their voices, bodies, and objects they found, assembled, or invented to make new sounds. Join us as we explore rhythm patterns, creative sound-finding and sound-making, graphic notation, and storytelling—because the creative brain is where **Sounds Abound!**

Rhythms of the Land

Rhythms of the Land: In **Rhythms of the Land**, you'll investigate drums, bells, rattles, singing, chanting, moving expressively, and the difference between beat and rhythm, as you explore the diversity of Native American cultures, music styles, and percussion instruments.

All Keyed Up

All Keyed Up: We're **All Keyed Up!** There is magic to be found in those 88 keys! Immerse yourself in the magic of keyboards of all kinds. Listen to and learn about pianos, organs, synthesizers, and harpsichords. You'll explore staccato and legato sounds, get to know the sounds of a few famous composers, and even experiment with composition.
