

CAEP Annual Reporting Measures 2017 Report Pertaining to 2013-2014 Completers

Measure 7: Ability of completers to be hired in education positions for which they have been prepared (initial and advanced levels)

SoE Alumni Survey

Graduates of Webster University's initial certification programs from academic year 2013-2014 were surveyed in Spring 2017 regarding their ability to be hired in education positions for which they have been prepared.

76.19% of respondents indicated that they are currently teaching/working in the field in which they were initially prepared at Webster.

This question was not included in the survey of 2013-2014 graduates of Webster's advanced studies programs. It was added to the survey the following year, and will continue to be asked in future annual surveys.

OIE Outcomes Survey

The university did not begin assessing graduates' ability to be hired in positions for which they have been prepared until the Office of Institutional Effectiveness began distributing its annual outcomes survey in 2015. This measure has been included in their survey since 2015, and will continue to be asked in future annual surveys.
