

CAEP Annual Reporting Measures 2020 Report Pertaining to 2016-2017 Completers

Measure 4: Satisfaction of completers (Component 4.4 | A.4.2)

SoE Alumni Survey

Graduates of the School of Education from academic year 2016-2017 were surveyed in Spring 2020. While previous versions of this survey asked respondents to assess the effectiveness of various elements of their academic program, the 2020 survey was revised to more directly assess respondents' satisfaction as it pertains to preparing them for employment in a P-12 setting.

Graduates were asked to indicate their level of agreement with the following statement. Their responses are below.*

"Overall, how well do you believe that Webster University prepared you to have a positive impact on the learning of your students in a P-12 setting."

Initial Certification Programs

n = 2

Very well prepared Well prepared Moderately prepared I did not feel well prepared

Advanced Studies Programs

n = 3

Very well prepared Well prepared Moderately prepared I did not feel well prepared

**Results of the SoE Alumni Survey are reported according to the SoE’s definitions of initial and advanced programs; data above may include responses from graduates of programs that are outside the scope of CAEP.*

OIE Outcomes Survey

The Office of Institutional Effectiveness (OIE) at Webster University distributes an annual outcomes survey, asking recent graduates about the impact of their Webster experiences, their employment status, educational plans, etc. The mean responses to two survey items pertaining to our 2016-2017 graduates’ satisfaction with their academic program are listed in the following table.*

Graduates were asked to indicate their level of agreement with the statements below, using the following scale:

Strongly Agree (4); Mostly Agree (3); Mostly Disagree (2); Strongly Disagree (1)

	Overall Avg.	GRAD Avg.	UNDG Avg.
I would recommend Webster to a colleague, friend, or family member.	3.50	3.45	4.00
I consider the investment I made in my Webster program worthwhile.	3.54	3.49	4.00

n = 49 Graduate Program Level

n = 6 Undergraduate Program Level

**Results of the OIE Outcomes Survey are reported based on program level (i.e., undergraduate and graduate), as opposed to initial certification programs and advanced programs. There was an insufficient number of responses from 2016-2017 survey respondents for initial certification and advanced programs within the scope of CAEP, therefore, results have been consolidated to protect confidentiality. Responses from programs that are outside the scope of CAEP have been included.*

DESE First Year Teachers Survey

The Missouri Department of Elementary and Secondary Education (DESE), in collaboration with the University of Missouri’s Office of Social and Economic Data Analysis (OSEDA), administers an annual survey of first year teachers in Missouri public schools. The results of the survey item pertaining to our completers’ satisfaction with their academic program from the 2018 administration of this survey are listed in the following table.*

	Very Good (5)	Good (4)	Fair (3)	Poor (2)	Very Poor (1)	Mean
Please click on the response that best reflects your perspective about the overall quality of the professional education program you completed.	60%	40%	0%	0%	0%	4.60

n size is not provided

** Most first year teachers surveyed in 2018 would have graduated during the 2016-2017 academic year. The DESE First Year Teachers Survey is only administered to first year teachers; therefore, it only pertains to graduates of Webster University’s initial certification programs.*
