Deliverables

Your course grade will be based on your scores on your examinations, papers, assignments, and your contributions to class discussions. These different components will be weighted as follows:

Case Study: 30%
Paper: 30%
Assignments and Self Assessments: 20%
Class Participation: 10%
Final Presentation: 10%

Evaluation

Criteria

Classes will include lectures, group exercises, and discussions of videos and short cases. Some individual exercises may be completed during class, but most will be completed outside class. All group exercises will be completed during class, and obviously cannot be made up individually later—you will simply not get credit for those missed group exercises. For all classes other than the first class, you are expected to have read the assigned chapters before class each week. This will enable you to participate in any exercises and to ask questions about material you didn't understand.

There will be one Case Study and a Final examination. The examinations will consist primarily of case studies, or short answers, and or short essay questions or exercises. The examinations will cover all of the assigned readings, even if the material was not discussed in class. In addition, you may be tested on information introduced in lectures, videos, or cases, but which is not covered in the textbook.

In addition, you are expected to complete self assessment exercises at the end of each chapter throughout the course. You only need to calculate your scores on the inventories, not copy each question. Your scores on the exercises will be turned in at one time at the end of the semester, unless instructed otherwise. In addition, there may be additional inventories or assignments that you will be responsible for completing as instructed.

Finally, you will be required to write a paper analyzing a performance problem that involves issues in organizational behavior. You will be given detailed instructions on the paper, but in general you will identify and describe a performance problem in some organization, analyze the performance problem in terms of relevant organizational behavior theories, and suggest one or more plans that might help solve the problem. The most important part of the paper is your analysis of the problem and its causes, although research may help clarify your thinking and analysis. This paper should illustrate your abilities to analyze real world situations and integrate the concepts you have learned during the course. Note that this is not a traditional term paper about some topic, nor is it a book report. The paper should not be longer than 10 pages, including the list of references, so you will need to be concise in your writing. Papers exceeding 10 pages may be penalized if the additional length was due to poor editing or writing.

**ATTENDANCE:**

Students are expected to attend all scheduled classes. In case of an unavoidable absence, the student must contact the instructor prior to or immediately after the absence. The student is subject to appropriate academic penalty for incomplete or unacceptable work.

Students missing class are required to provide the instructor with a two to four page summary of each chapter assigned for the week of the absence plus written responses to certain questions at the end of the chapters if appropriate. Material is to be turned in during the next class session following the absence. If an oral report is scheduled for the class when the student is absent, arrangements must be made for the presentation to be made at some other time that is convenient and appropriate for the class.

Assignments Graded: see Grading Requirements above in the Evaluation section
**Please silence all cell phones during class (set to vibrate for emergency calls is acceptable). Even while meeting remotely a ringing phone can be distracting.**

After the DROP deadline, students may WITHDRAW from a course; in the case of a WITHDRAW, a grade of W appears on the student record.
